Peel Spotlight

SkinMedica Chemical Peels

The Illuminize Peel

This non-invasive very superficial chemical peel utilizes a novel approach to chemical peeling with a newer generation of alpha-hydroxy acids (mandelic acid and malic acid) in combination with phytic acid and commonly used peeling agents (salicylic acid and resorcinol) to maximize skin rejuvenating effects with low irritation.

- Increase skin glow and radiance
- Tightens the skin and restores a more youthful appearance
- Improves clarity, color and skin texture
- Patients achieve enhancement of skin appearance with minimal downtime and discomfort
- Appropriate for first-time chemical peel patients or patients looking for a gentle, very superficial peel
- Great for all skin types
- Little or no visible peeling

Regular price: \$120

Get your peel on April 21st for half-price, only

SkinMedica
Redness Relief
CalmPlex™ is here!

Regular Price: \$80
Save \$10 in April, only \$70 + tax

New SkinMedica Redness Relief CalmPlex™ is HERE!

We are excited to announce that SkinMedica's newest prescription-strength product to relieve visibly red skin is here and is flying off the shelves!

Redness Relief CalmPlex is a clinical breakthrough that reduces visible redness by addressing the underlying causes, while helping to promote healthy skin.

Clinical studies show Redness Relief CalmPlex reduces acute, UV-induced and chronic visible redness in as early as two weeks, with continued improvement over time.

- Addresses the underlying causes of redness
- Clinically proven to reduce visible redness

Results in as little as 2 weeks with continued improvement through week 12!

New Products Coming Soon!

We will soon be carrying select products from the Revision® skin care line including the wildly popular Teamine Eye Complex, Nectifirm (neck firming cream) and a fabulous tinted moisturizer called Intellishade. Check out next month's newsletter for introductory offers on Revision products!

their fear o
& how they

CALM SKIN IRRITATION
 Expert: Dr. David Colbert
 Client: Michelle Williams

Seeing red? The winter-to-spring transition, including temperature change and increased sun exposure, can stress out skin, leading to inflammation and visible redness. Neutralize ruddiness with a cream containing calming lavender and aloe, along with vitamin B to strengthen the skin's outer protective layer, Colbert says. "Upping your SPF protection also helps to keep tone even," he adds.
