Product Spotlight

[Vivite Firming Lotion](#)

This new product is a fantastic take-home product following a ProLipo or Vaser body contouring treatment, or simply as a stand-alone daily firming treatment. Tones and tightens dimpled "orange peel" skin and improves elasticity and firmness for a smooth, sleek look in as little as 28 days.

Price: \$67

[Vivite Defining Lip](#)

August Specials

\$30 off a Dysport service

Dysport is the new wrinkle corrector with the same active ingredient as Botox Cosmetic. Dysport is FDA approved for treatment of the glabellar lines ("11 lines in between brows) and is expected to last 4 months. The effects of Dysport can be seen in just a few days.

**Not valid with any other offers, discounts or certificates.*

Back-to-School "Absent Acne" Package

This is the knock-out punch in the fight against acne. Purchase a Clarisonic Pro cleansing tool and an [Obagi Clenziderm Starter Kit](#) for just \$299 plus tax. The Clenziderm products alone help diminish acne, but when the Clenziderm cleanser product is applied to the face using a [Clarisonic PRO](#) machine, the results can be even more dramatic.

**Not valid with any other offers, discounts or certificates.*

Buy a Package of 4 Micodermabrasion or Peel Treatments and Receive Two Free

Special applies to our crystal free microdermabrasion treatments (\$120 each), Biomedic

[Plumper](#)

This product improves lip volume and fullness while smoothing the appearance of fine lines. Lip volume increased by 40% on average!

Price: \$45

Dr. Beth Hagberg to Co-Host FM 107.1 Radio Show!

It's official! Dr. Beth Hagberg is soon to be a radio personality. Dr. Beth is slated to be one of the new co-hosts of "The Waiting Room" a one-hour talk show on FM107.1 airing Sunday mornings from 10am-11am. Once a month, Dr. Beth will join host Colleen Lindstrom to discuss the latest in non-surgical cosmetic trends. Listeners will have an opportunity during each show to call in or email their beauty-related questions. "The Waiting Room" will feature one of five medical professionals each week, so expect to hear Dr. Beth once a month. Her first show airs Sunday, August 16th. For more information, visit The Waiting Room [show page](#).

Dysport® is Here!

The highly anticipated wrinkle treatment Dysport is now offered at Skin Rejuvenation Clinic. Dysport is the first product brought to the national aesthetic market that should effectively rival BOTOX® Cosmetic.

According to Dysport's Britain manufacturer, Ipsen Limited, the product is a simple yet effective, non-surgical treatment to smooth away or improve frown-lines and wrinkles that works by relaxing facial muscles on the forehead. Like BOTOX Cosmetic, Dysport consists of the same basic ingredient, Botulinum Toxin A.

Dysport can last 4 months and the onset is just a few days. The regular price of Dysport will be \$12 for 2 units (it product will be dispensed in units of 2, so an estimated price of Dyport to treat the frown lines between the brows would be \$300.) In the month of August, Skin Rejuvenation Clinic is offering an introductory special of \$30 off all Dysport services. Call (952) 920-6545 to book an appointment.

Want Thicker, Darker and Longer Eyelashes? Try Latisse!

Skin Rejuvenation Clinic is proud to sell [Latisse](#), the first and only FDA-approved prescription treatment for hypotrichosis, or inadequate eyelashes. Latisse was approved specifically to enhance eyelash length, thickness and darkness.

Available only through select physician's offices, Latisse is a once-daily prescription treatment applied to the base of the upper eyelashes with a sterile, single-use-per-eye disposable applicator. According to Allergan, Inc., the manufacturer of Latisse, users can expect to experience longer, fuller and darker eyelashes in as little as eight weeks, with full results in 16 weeks. If use of the product is discontinued, eyelashes will simply return to their previous state over a period of weeks to months, or an average eyelash hair cycle.

Dr. Beth says the fundamental benefits of Latisse (active ingredient is bimatoprost ophthalmic solution 0.03%) were discovered years ago. "In 2001, the FDA approved this solution as a treatment for specific eye disorders relating to glaucoma," she said. "Patients who had been treated with this type of solution noted eyelash growth as a side effect."

"As a physician, what's even more exciting than the notion that I can offer a product to literally thicken, lengthen and darken lashes in a matter of weeks, is the fact that Latisse has been widely recognized in the medical community as a safe and effective product," Dr. Beth concluded. "After years of clinical trials and hundreds of patients tested, I am confident that Latisse will exceed consumers' expectations."

To inquire about Latisse, call Skin Rejuvenation Clinic at (952) 920-6545 or to purchase, visit them in Edina's Southdale Medical Center located at 6545 France Avenue in Suite 234.
